Alves Martins Secondary School

Project EduCO2cean
2016-2018

Set of Activities
In the school year 2016/2017, class 11H and a team of teachers from Alves Martins Secondary School engaged in a set of activities within the scope of the European Project EduCO2cean. This is a project financed by Erasmus+ and coordinated by the Portuguese Association of Environmental Education (Aspea).
Activities and Results:
• Winner of the Short Film Contest:

Os climas da Terra

First place
• Participation in an Infographics Contest – Second place and 2 Honorable Mentions:

- Second Place
- Honorable Mention
- Honorable Mention
• May 4th to May 12th – Temporary Exposition “Deep Sea”, the opening session was on May 4th
• May 9th – Lecture “Deep sea marine ecosystems and climate change” by Marine Biologist Daniela Castelo

With the participation of the President of the Portuguese Association of Environmental Education (Aspea), Joaquim Ramos Pinto, and both the Coordinator and Vice-Coordinator of the Viseu Aspea Nucleus, Jorge Loureiro and Carla Ferreira.
May 11th – “Opening Night – the Oceans and our Future”

In an opening night event, the students introduced the project to the community and spoke about the importance of the Oceans, the problems these are fraught with due to human activity, and how important it is to change the way we manage the resources Earth offers us.

With the participation of the Coordinator of the Viseu Aspea Nucleus, Jorge Loureiro.
• May 20th – European Maritime Day – Celebrations promoted by Aspea in Aveiro – Meeting of the students involved in this project
• June 10th – Opening Night – “The Climate and Us” at Carmo’81 in Viseu

With the participation of the President of the Portuguese Association of Environmental Education (Aspea), Joaquim Ramos Pinto, and Vice-Coordinator of the Viseu Aspea Nucleus, Carla Ferreira.
• International Meeting of teachers and students (Mexico, Portugal, Spain) – Project EduCO2cean / Project Climántica – Fábrica da Ciência – Aveiro University
• Participation in International Youth Campus in Nóia – Galicia – Project EduCO2cean / Project Climántica
